After the application has been filled out at the State, how long does it take to process a license?

Approximately 65-105 days.

Who issues liquor licenses?

Liquor licenses are issued by the State.

What role does the City of Scottsdale play in the liquor license process?

All new bars/nightclubs in Scottsdale (that do not already have a Series 6 license) must obtain a conditional use permit. Applicants are to contact the city's Current Planning office at (480) 312-7000 to schedule a pre-application meeting to initiate the process for a bar/nightclub use permit.

Applicants are strongly encouraged to process their conditional use permit request in conjunction (or simultaneous to) their liquor license.

The City will receive a copy of your application from the State. After the City receives your application, Planning and Development Services staff will review it for zoning requirements and adequate on site parking. The Police Department will review it as well for the following:

- Petitions and testimony from persons in favor of or opposed to the issuance of a license who reside in, own or lease property in close proximity.
 - The number and series of licenses in close proximity.
 - Evidence that all necessary licenses and permits have been obtained from the state and all other governing bodies.
 - The residential and commercial population of the community and its likelihood of increasing, decreasing or remaining static.
 - Residential and commercial population density in close proximity.
 - Evidence concerning the nature of the proposed business, its potential market, and its likely customers.
 - Effect on vehicular traffic in close proximity.
 - The compatibility of the proposed business with other activity in close proximity.
-

-
- The effect or impact of the proposed premises on businesses or the residential neighborhood whose activities might be affected by granting the license.
 - The history for the past five years of liquor violations and reported criminal activity at the proposed premises provided that the applicant has received a detailed report(s) of such activity at least 20 days before the hearing by the Board.
 - Comparison of the hours of operation of the proposed premises to the existing businesses in close proximity.

What's Next?

If needed, your conditional use permit request and liquor license will be processed concurrently and will be heard together at a City Council public hearing. The City Council will either approve or deny the conditional use permit request and recommend either approval, denial or no comment on the liquor license request. The City has 60 days to process your application from the time you applied at the State.

What if my application is recommended for approval?

The City will send a letter to the State recommending approval and you should receive your liquor license from the State within 15 days.

What if my application is recommended for denial?

The City will send a letter to the State recommending denial. You will then have a State hearing at which time they will make the final decision on liquor license issuance.
